

KEFALOS BEACH
TOURIST VILLAGE

HEALTH AND SAFETY POLICY

The Management of KEFALOS BEACH TOURIST VILLAGE is committed, without sparing expenses and toil, to the ongoing effort to ensure a safe working environment for employees, customers, partners, and suppliers by considering the legislation, the recommendations of the competent authorities, as well as new scientific data regarding risks in the workplace.

The hotel's primary goal is to ensure that accidents, for both staff and clients, will be eliminated or minimized.

To ensure the Health and Safety at workplace KEFALOS BEACH TOURIST VILLAGE has developed and implements a Risk Management System, which is used to assess and manage risks by applying the necessary measures of control, protection and prevention, for a safe working environment.

The responsibility for the correct functioning of the Risk Management System, as well as the continuous improvement of the system, is shared between the Management of the hotel and the Health and Safety Committee, which is granted the corresponding authority and duties.

The Management is committed to support and maintain the Risk Management System in order to function efficiently and to cover the purposes of its creation.

Additionally, the Management is committed to providing appropriate and adequate staff training regarding Health & safety at work, so that the staff is fully engaged to the protection and prevention effort.

Every employee is required, by making use of the training and the means that is provided, to comply with the procedures of the Risk Management System and to contribute to its ongoing consolidation and improvement.

The Management of the hotel is committed to ensuring that the Health & Safety policy at workplace is understood, implemented and maintained by all employees without exception.

Paris Hadjioannou
